Deena Alansky, Designer/Photographer

DEENAVISION DESIGNS: Deena Alansky at Deenavision Designs provides services in Web and Graphic Design, Corporate Identity, Social Media Marketing, Digital Photography, Photo Scanning & Restoration, and Image Editing and Enhancement.

WEBSITE DESIGN: Having a professional website is crucial for the success of businesses in today's competitive marketplace. When you hire me to create your new website, my goal is always to not only meet, but to exceed your expectations. I offer free consultations, and after meeting with you in person or by phone, I can prepare a detailed estimate for your project. Each website is fully customized to meet your specific needs and goals.

GRAPHIC DESIGN: Graphic design is a crucial need for most companies. I provide a wide array of graphic design services, including: logo design, print ads, posters, signs, business cards, stationery, banners, brochures, invitations, greeting cards, CD covers, and more. And I have experience designing for both print and web media.

SOCIAL MEDIA MARKETING: Business savvy companies recognize that social media is a great way to reach a wider audience. Having a social media presence has become as important as having a website itself, and it helps companies interact with clients, get instant feedback, and promote special events. I can create social media accounts on popular sites, such as Facebook, Twitter, YouTube, Instagram, etc. to match and compliment your website.

CORPORATE IDENTITY: Your matching logo, website, social media, stationery, and business cards will unify and reinforce your company's name and help you stand out from the crowd. I can create a corporate identity package to serve all your business needs.

DIGITAL PHOTOGRAPHY: Relax and enjoy that special occasion by hiring your own event photographer. Call me for your next birthday party, graduation, baby shower, anniversary, retirement, or any special occasion. Photo-related services include: photo editing and image enhancement in Photoshop, creating a web-based photo gallery, and/or creating a custom photo album that you and your family can enjoy for years to come. I can also take photos for local bands and design your next CD cover. Many options are available for businesses, organizations, families, etc.

PHOTO SCANNING & RESTORATION: Breathe new life into old family photos. When you hire me to scan and digitally enhance your prized family photos, I will restore them to their former glory. Makes a great gift.

CUSTOMIZED DESIGN: I can provide your company with high quality digital media services at competitive prices. You'll receive individual attention and custom designs. My clients are my number one priority.

I will work with you every step of the way to ensure you are 100% satisfied with your new website and/or any other media services I provide. With my strong art background, and a degree in Multimedia & Web Design, I bring the perfect blend of art, design, form and function to every project I create, along with great attention to details. Visit my Digital Portfolio website at www.deenavision.com to view samples of my work. Thank you for your time and consideration.
